Responsible for:

- Developing of the website using OOP PHP.
- Supporting further releases developed in ASP.
- Adapting and adjusting graphic packages from other regions.
- Working closely with the writer producers and editors.
- Strong creative and conceptual vision and excellence in Typography.
- Carry out quality assurance tests to discover errors and optimize usability.

Senior Software Developer and Chief Technical Officer - 10/2017 – 12/2019

OJALAWA, Lagos (Nigeria) – Hybrid (remote, onsite)

CTO with the sole responsibility for managing the technological requirements of the ecommerce startup (Ojalawa) and currently developing its online store, ojalawa.com.

Ojalawa is an online food marketplace dedicated to the supply of groceries around Lagos State.

Responsible for:

- Complete development of the website using Magento.
- Development of a native mobile application for Android.
- Leading development team for framework designing.
- Developing project concepts and maintaining optimal workflow.
- Carrying out quality assurance tests to discover errors and optimize usability.

Highlight:

- In spite of very tight schedules and limited resources, the e-store was fully developed from scratch and was online for an extensive beta testing.

Co-founder and Chief Executive Officer - 12/2015 – present

GIGABYTE DEVELOPERS, Abia (Nigeria) – Part-time

Started running a multipurpose software development company locally by leading a team of developers and developing enterprise-ready, first class, high quality, low cost, easy to use software solutions that incorporate top class technologies for our individual and business clients.

Responsible for:

- Managing the development team.
- Cooperating with designers to create clean interfaces and simple, intuitive interactions and experiences.
- Developing project concepts and maintain optimal workflow.
- Working with several senior developers to manage large, complex design projects for corporate clients.
- Completing detailed programming and development tasks for front end public and internal websites as well as challenging back-end server code.
- Providing statistical and performance feedback illustrated in charts.
- Coaching and administering performance reviews for proper skill improvement.

Highlights:

- Successfully completed over 40 web projects.
- Completed development of over Android 19 applications.
- Over 65 happy clients in a period of 4 years.
- Over 10,000 people make use of our software solutions directly or indirectly.

Bioresources and Research Intern - 03/2017 to 10/2017

NATIONAL ROOT CROPS RESEARCH INSTITUTE, Umudike, Abia (Nigeria)

Industrial training and research internship on bioresources.

Responsible for:

- Workin on several research projects.
- Providing statistical and performance data illustrated in charts.
- Cooperated with colleagues to develop a thesis on the utility of bioresources in modern-day biotechnology.

Chief Information Officer and Information Technology Director - 10/2020 – present
OCTOFI LIMITED, Anambra State (Nigeria)

Octofi is a Wireless Internet Service Provider that provides fast and reliable internet service to individuals, homes and offices via WiFi.
